Accelerate Your Nonprofit Mission with ServiceNow® as a Service for Nonprofits - by NPSM

Challenges faced by Nonprofits:

Nonprofits missions shouldn't be slowed by scattered apps, siloed data, or manual processes. Every hour spent wrangling disparate systems is an hour lost for your cause. Traditional platforms often focus only on IT, leaving other departments in the shadows and limiting impact.

With ServiceNow® as a Service for Nonprofits, you can:

- Go live in weeks, not months — zero onboarding cost.
- Lower TCO by replacing siloed tools with one secure and unified platform
- Unified view: IT + mission data in one place.
- Flexible scaling for small, medium, and large nonprofits.
- Revenue share model: sales incentive + customer savings
- Enjoy continuous upgrades, hosting, and support - we handle it all, so you don't have to.
- Freedom from IT overhead, vendor chaos, and integration headaches.

Why ServiceNow® as a Service for Nonprofits?

ServiceNow® as a Service for Nonprofits delivers 10+ purpose - built nonprofits apps in a single AI-ready suite of solutions, brings together everything you need to run your operations-fundraising, grants, volunteer management, facilities, identity management, emergency response and impact tracking-all on one secure platform, fully managed by experts.

You get enterprise-level technology, without needing IT staff or complex integrations.

Start with just one license - setup is as easy as swiping your credit card - and scale as you grow. You focus on your mission. We handle the technology.
